PROFESSIONAL SUMMARY

I'm a procurement and purchasing professional with hands-on experience in supplier sourcing, tender documentation, invoice processing, and client relationship management, gained across the insurance and retail investment sectors. I hold a diploma in Purchasing and Supplies Management and recently completed a Full Stack Software Engineering certification (React, Python/Flask), which has added digital skills to my operational background. I take pride in honest dealings with vendors and clients, and in building relationships that last.

KEY SKILLS

- Procurement, purchasing and supplier management
- Tender documentation and vendor evaluation
- Invoice processing, order management and book-keeping
- Client relationship management and policy renewals
- Sales prospecting and cross-selling based on client needs
- Front-end development: HTML, CSS, JavaScript, React
- Back-end development: Python, Flask, SQL, REST APIs
- Git and GitHub for version control

PROFESSIONAL EXPERIENCE

Sales & Client Relations Officer | Britam Insurance Company

2017 – 2019

- Spotted new sales opportunities and followed through to close them, helping grow the client portfolio.
- Kept on top of policy renewal dates and claims tracking so renewals stayed on target and lapses stayed low.
- Advised clients on the right investment and insurance products for their needs, often selling more than one policy per client.
- Stayed in touch with existing clients about new products, which helped keep them long-term.

Purchasing & Supplies Officer | Nyakoe Investment

2014 – 2016

- Handled day-to-day book-keeping alongside purchasing and supply of goods for the business.
- Issued and managed tender documents with integrity throughout.
- Processed supplier invoices and raised purchase orders on time.

2019 – 2026: Career Break for Study

- Took time to retrain, completing a Full Stack Software Engineering certification (Moringa School, 2026) covering React, JavaScript, Python/Flask, SQL and Git — including a capstone project where I built and deployed a working web application. Code available on GitHub: github.com/rispernjeri789-cyber/lists.

EDUCATION

Diploma in Purchasing and Supplies Management — University of Nairobi (2014 – 2016)
